Features & Benefits

Crossville Porcelain Panels®

DISTINCTIVE VALUES

MAIN FEATURES

Dimensions 1620mm x 3240mm

Perfectly Flat

12mm thick, 30kg/m²

CHEMICAL RESISTANCE

Crossville Porcelain Countertops resist organic and inorganic solvents, disinfectants and detergents. They can be easily cleaned without affecting its surface characteristics; the only product that can attack our counters is hydrofluoric acid.

WEAR RESISTANCE

Crossville Porcelain Countertops are highly scratch resistant and resistant to deep abrasion. The properties of the countertops remain unchanged even after intensive use and frequent cleaning.

HIGH FLEXURAL STRENGTH

Crossville Porcelain Countertops have high modulus of rupture.

FROST RESISTANCE

Crossville Porcelain Countertops' average water absorption is 0.1% making them frost resistant in any weather condition.

FIRE RESISTANT

Crossville Porcelain Countertops do not contain organic material therefore are resistant to fire and high temperatures.

CHROMATIC PROPERTIES

Crossville Porcelain Countertops do not contain organic pigments and are resistant to UV rays. Even in the harshest sunlight colors stay true.

GRAFFITI

Crossville Porcelain Countertops are graffiti resistant. Even the strongest paints can be removed.
